This is an essential marketing tool to accompany your Grid100 online software.

Most sports clubs have a bar and this is the best place to capture your prospective advertisers.

Having a copy of your grid on the wall will attract interest and can be used as a sales aid whilst convincing people to join in the fun. (The more they drink, the easier it is to get them to part with their money!)

Although people can buy their advertising from the grid by paying online, it is sometimes easier (Particularly for the non-techie) to pay by cash.

This is good because you can now add their listing manually and avoid PayPal charges.

The display board makes a perfect reference for members in the bar looking for product or services where they can simply note details and add them to their mobile telephones.

Business cards can be attached to the display board with double sided tape which forms a good bond and deters casual removal.

Your display board is fully customised for you and delivered by courier.

You will be offered the opportunity to order this before your new grid goes live.

Kind regards
